

General description:

Keen on being in the heart of the action but without sacrificing privacy and sweeping 360° views? No need to choose between the two: Villa La Perla Sky has it all! The spacious Penthouse is in one of the island's most sought-after areas where you can tour, shop, dine, and more, and when you get tired, head to your private rooftop pool deck, kick back, and watch the sun setting over the horizon with an aperitif in hand.

The space is modern with a homey chic, Villa La Perla Sky is all about sweeping views and convenience! You'll be able to do various activities, ranging from tennis and gym sessions to relaxing massages and private boat tours from the Marina. Of course, strolling on the Plaza in this exclusive residence and dining in select restaurants will be no less enjoyable.

Although you may choose to skip cooking altogether, the villa features a highly modern kitchen worthy of a professional chef with a long list of appliances, including a dishwasher, a coffee and an espresso machine, as well as an ice machine.

There are also two options if you decide to eat in (you could order delivery or hire a private chef!): the dining room table next to the large open-plan living area and the covered table on the rooftop patio.

Each of the three bedrooms is highly comfortable and offers panoramic views. There is a choice of air-conditioner and ceiling fan, king-size beds, and TV; two bedrooms come with En-suite bathrooms, and the third bedroom has a separate bathroom & TV.

The Apartment also has a sizable balcony great for morning coffees, a big 65-inch smart TV, and a rooftop with a plunge pool ideal for sunbathing, al fresco dinners, and evening cocktails.

The Penthouse La Perla Sky is set on the Dutch/French border in a high-end Mediterranean-style village called Porto Cupecoy Marina.

You will have access to all of the residence's public amenities, including a stunning garden, swimming pool, state-of-the-art gym, supermarket, two tennis courts, Casino, and others. As one of the island's most popular places, the vibrant village is also very green and rejuvenating.

The apartment's location is hard to beat, as many of the island's main attractions are within a quick 15-minute drive: several impressive beaches, superb shopping and dining, the French capital Marigot, airport, casino and nightlife at Maho, to name a few.
